Step-by-Step Quick Featured Images Pro plugin setup

For ResultFlow hosted blogs (aka, Instablogs) and self hosted "Superblogs" created prior to 4-May-2021, you need to update your Quick Featured Images Pro plugin. Please follow the instruction to update your plugin.

For Instablogs and Superblogs created starting 4-May-2021, plugin is already updated and no longer require the license key.

To automatically assign images to your blog posts, go to Featured Images Default Images.
